NOT FRIENDLY TO ABOLITION.

Never Expressed Himself Opposed to the Lords. If Mr. Gladstone is quoted rightly, his latest utterance is apt to add to the confusion which already exists in the ranks of the opposition in parliament, the various

ferent directions.

He is said to have replied to a question that he was not conscious of ever having given an opinion in favor of the abolition of a second parliamentary chamber or hav-

elements of which are likely to pull in dif-

ing used language in that direction. This is so indefinite that almost anything can be made out of it, or nothing at all; but it is apt to be taken as a backhanded but it is apt to be taken as a backhanded hit at Lord Rosebery and a sneer at Mr. Labouchere. At all events, it will prevent the ex-premier being quoted in any onslaught on the peers by the radicals.

The only sign of disturbance in parliament thus far comes from the Irish members. The nationalist party quietly elected Justin McCarthy chairman, but Timothy Healy, according to the Times, began an indirect campaign against the leader in the shape of a motion presented by Arthur shape of a motion presented by Arthur O'Connor in favor of abolishing the committee, which has become strongly Dillonite in its composition. This motion was defeated, it is reported, by 34 to 26. The Times is also authority for the statement that after the queen's speech has been heard the nationalists will meet again to decide whether they shall start a fight in the house by moving an amendment to the reply

Two important telegrams were received at the Treasury Department late vesterday New York. The first said that the bond syndicate had deposited \$1,658,000 in gold in exchange for legal tenders. The other said that \$1,150,000 had been withdrawn for export to Europe. These transactions left the treasury gold balance at \$102,431,061 and at the same time satisfied treasury officials that the syndicate intends to protect the gold reserve to the best of its ability,

Animals when wild constantly die a lingering death from injury to the skin, whether caused, as usually happens in tropical countries, by wounds aggravated by insects, or by cutaneous disease. An important competitive test will be held at the naval proving grounds in a short time, in order to assist the ordnance officers in the selection of a satisfactory machine gun to correspond with the small arm just adopted for the use of the navy and marine corps. It is desired to have the caliber of the two pieces correspond, or six millimeters. It is expected that at least five manufacturers will compete in the proposed test of machine guns-the Gatling posed test of machine guns—the Gatling gun people, the owners of the Maxim gun; the Colt Firearms Company, which has an automatic gun; the Hotchkiss company, which owns a breech invention, and the Driggs gun people, who make the machine gun known as the Gardner gun. There may be other machine-gun manufacturers who will wish to compete with these established concerns, and it may be that a novelty will be adopted in place of the 45-callber Gatling machine guns at present in use. Ex-Consul Waller has written a letter to his stepson, P. H. Bray, in which he says his baggage was taken from him by the French on his arrival at Marseilles, and although he made a complaint to the United States consul at that place on April 27, he has heard nothing of it since. He says he has not received a word from Mrs. Waller or his children since his departure from Madagascar, nor had he yet received the money sent him by friends in received the money sent him by friends in Iowa a few days after word reached this country that he was ill and without funds to supply himself with medical attendance. This was early in June. The letter to Mr. Bray is dated July 22. Mr. Waller expresses much gratitude for the interest taken in his case by the newspapers of the United States and by his friends, and was especially glad to learn that the Department of State was looking after the protection of his family. He expresses a belief and hope that he will be released soon.

Their Fines Refunded.

The State Department has received a dispatch from Mr. Jackson, charge d' affaires at Berlin, concerning the arrest of two American citizens, Fred and Ferdinand Kort. These men were born in Germany, and in 1888 came to the United States, being then seventeen and fifteen years old, respectively. They were naturalized at Chicago in 1894. Last September they made Chicago in 1894. Last September they made a visit to Germany. In March they were arrested and fined 160 marks for failure to perform military duty. The German authorities, upon an investigation undertaken at the instance of the American embassy, annulled the proceedings and ordered the return of the money. Mr. Jackson says that the brothers, having finished their visit, returned to the United States. Their present whereabouts are unknown and the present whereabouts are unknown, and the embassy cannot learn if the money has been refunded.

The Star Out of Town.

THE EVENING STAR will be sent by mail to any address in the United States or Canada for such period as may be desired at the rate of fifty cents per month. DBut all such orders must be acline. The advantages it offered quickly became known to the other men employed on the rest of the Belt road, as well as its sister corporation, the Eckington, and so many of these expressed a desire to join that the association was extended to allow them to enjoy its benefits. The plan of the association is simple. An entrance fee of \$\frac{1}{2}\$ is charged each member, after which he is required to pay dues of \$50 cents a month. Should a member fall sick he is paid \$\frac{1}{2}\$ per week as long as his illness continues, and if he should die each member of the association is assessed \$\frac{1}{2}\$, and the money thus collected turned over to his widow or heirs.

MANAGED BY THE MEN.

Eckington and Belt R. R. Employes Organize for Beneficial Purposes.

Two applicants were admitted to member

ship in the Eckington and Soldiers' Home

and Belt Railway Companies' Beneficial

Association at the meeting held last night.

Other applications were received and re-

ferred for examination previous to being

acted upon at the next regular meeting. The association is a new one, having been

formed July 10 last by the employes of the

Belt company engaged on the 11th street line. The advantages it offered quickly be-

thus collected turned over to his widow or heirs.

The officials of the Eckington and Belt companies have no connection whatever with the association, but membership in it is open to them on the same ground that it is to the employes. To be admitted it is necessary that an applicant shall be voted for by two-thirds of the members of the association, while three black balls are sufficient to deny his application in any event. The officers and members of the association deny that membership in it is at all compulsory, or that there is any insurance idea about the organization, it being simply a relief association, such as those connected with the Baltimore and Ohio, Baltimore and Potomac and the Washington and Georgetown railroads.
